Motion 6.1: Support Health Before Profits

Preamble:

The NSW COVID outbreak has developed into a national public health crisis. Instead of taking measures to stop the spread, the Liberals are arguing that we must “learn to live with COVID” and state governments are moving away from the goal of zero community transmission. For tens of thousands of people around the country, this will mean suffering and dying with COVID.

While mass vaccination is important, countries that have opened up at these rates such as the UK and Israel have seen tens of thousands of daily cases, hundreds of daily deaths, and overwhelmed healthcare systems. New modeling warns that lifting restrictions in Australia with 80% of the adult population vaccinated could result in 25,000 deaths and 270,000 cases of debilitating long covid.

As long as the virus isn't brought under control in NSW, everyone will remain at risk. According to ACT Health, there have already been eight separate incursions of the virus into the territory. Andrew Barr has eased restrictions in the ACT, including allowing the resumption of the entire construction sector and the return of college students to classrooms, before community transmission has been eradicated.

The response to the pandemic has revealed that COVID-19 is a class issue. Workplaces have been one of the main sites of transmission. It is the working class, and in particular the most oppressed and marginalised sections, who will suffer from uncontrolled spread. In Sydney, workers in the south west, many from migrant backgrounds are disproportionately affected. In regional NSW, a humanitarian crisis is unfolding as the majority-Indigenous town of Wilcannia battles a COVID outbreak without access to a single ventilator. ANUSA should stand resolutely opposed to any effort by the Australian capitalist class to raise their profits by jeopardising public health.

Instead, we need strong restrictions on businesses, alongside social measures to reduce the impact of lockdowns on ordinary people. Many workplaces currently classified as “essential”, such as construction, should be shut down, with all workers paid their full wage while stood down. No moves should be made to re-open schools and other workplaces until transmission is reduced to zero; free laptops and internet access can be provided to students studying from home.

In workplaces that are genuinely essential and cannot be shut down, a range of measures can be implemented to protect workers, including mandating safe ventilation levels, staggering rosters to reduce contact between groups of workers, providing full fit-tested PPE at bosses' expense, a move to click-and-collect instead of in-store shopping and priority vaccination with paid leave.

Additionally, we need huge increases to funding and staffing levels for the public health system, a ramping up of the vaccine roll-out extending to children, and the development of purpose-built quarantine facilities to prevent constant outbreaks and allow for the safe entry of citizens, refugees and migrants to the country. We also need massive increases to the amount and accessibility of welfare payments. All of these measures should be paid for by taxing the rich.

Our student union should support the Health Before Profits campaign that has been launched by a number of activists, nurses, and doctors to fight for these public health measures and an overall strategy of striving for zero transmissions.

Faced with a choice between the bosses' plan to unleash mass infection and death on the population, and the demands of the majority for social solidarity and prioritisation of public health, ANUSA must stand firmly on the side of the latter, and support the Health Before Profits campaign in continuing to wage the argument for elimination of the virus.

Action:

- ANUSA endorses the national Health Before Profits campaign and supports an elimination strategy that aims for zero COVID transmission in the community.
- ANUSA opposes the Morrison and Berejiklian campaign to open up the economy according to the four-phase plan and "live with the virus."
- ANUSA calls on Chief Minister Andrew Barr to continue to support a COVID elimination strategy and opposes any move to further open up before community transmission has been eliminated.
- ANUSA demands state governments implement proper lockdowns in areas where there are active outbreaks, including closing non-essential businesses and keeping schools closed until it's safe.
- ANUSA demands an increase in the amount and accessibility of income support payments, regardless of visa status. We need to pay people to stay at home.

ANUSA will sign on to the NSW Lockdown to Zero campaign statement (<https://forms.gle/ZcXA9vyrdR7UUFH39>), publish this statement on its Facebook account, and use its social media to promote Health Before Profits campaign events.

Motion 6.2: Motion for ANUSA to endorse the COP26 Global Day of Action

Preamble:

"It is unequivocal that human influence has warmed the atmosphere, ocean, and land. Widespread and rapid changes in the atmosphere, ocean, cryosphere, and biosphere have occurred." -IPCC AR6

We are seeing the impacts of climate change every day. The recent wildfires in Greece, California, Russia, and all over Australia, are the result of government and corporate refusal to cease the expulsion of carbon into the atmosphere. This refusal has spanned decades and been maintained despite knowledge of the potential consequences for humanity.

World leaders meet every couple of years at international UN events like the Conference of Parties (COP). It is essential that CO2 emissions are reduced to zero to avoid the worst predicted levels of warming and climate catastrophe, but we are in a crisis of inaction. The most powerful governments attend these conferences, then return to their countries to take insufficient action or none at all. The Australian government is one of the worst offenders, responsible for both massive emissions from fossil fuel extraction, and also for pressuring other countries and institutions to water down environmental action. Millions of lives are at risk, and another international talk-shop where targets are set then ignored will not solve the problem we face.

As many of those responsible for the expulsion of carbon into the atmosphere gather for COP26, people around the world will be taking action on November 6th to demand an end to fossil fuel extraction, and to protest their governments' continued inaction on climate change.

As part of this Global Day of Action, a protest will be held at 1 pm in Garema Place on Saturday, November 6th (event here: <https://fb.me/e/14yae7A3r>). This plan is subject to change depending on the covid situation. Preceding the rally, a national online campaign launch will take place on Sunday 10th of October (event here: <https://fb.me/e/2y3FoKd86>).

Action:

- ANUSA notes the positive results of the student referendum on fossil fuel divestment, and calls on ANU to cut all ties with fossil fuel corporations
- ANUSA supports the Global Day of Action coinciding with COP26
- ANUSA will share the Canberra event on Facebook, and in the email newsletter, within a fortnight of this motion passing, and in the week preceding the event.
- ANUSA will share the campaign launch event on Facebook, and in the email newsletter
- ANUSA will co-host the Facebook event for the Canberra action
- ANUSA representatives who support this motion will help with online promotion of the event and will attend.

Motion 6.3: Ethical Sponsorships Committee Election Amendment

Preamble:

The most significant sponsorships ANUSA undertakes are in O-Week. It is therefore essential that the Ethical Sponsorships Committee is fully populated before that point. These amendments provide multiple options for how this can be done.

Firstly, the outgoing SRC may appoint General Representatives from the incoming SRC to the committee on the advice of the incoming SRC. What this would probably look like is an informal election taking place among the incoming SRC to choose the four gen reps to be appointed and this advice being provided by way of a motion to appoint those reps to the incoming committee at SRC6/7/8.

Secondly, failing this, the gen reps can be appointed by an out-of-session vote which is ratified at the next SRC meeting. This could be done by a circulated ballot (such as a poll emailed to reps) or at an informal SRC Zero that does not meet the official requirements of an SRC.

In addition, I have added an explicit power for the Committee to co-opt other members as appropriate. An example of the way this might be used might be to solicit the views of a Department Officer on a particular sponsorship or otherwise to take advantage of someone's particular expertise.

Motion:

Amend ss 3.0 of the Ethical Sponsorships Policy as follows:

Replace:

“The “committee” will also include 4 general representatives to be elected at SRC 1. General representatives must be members of the SRC.’

with:

“The “committee” will also include 4 general representatives to be elected at or before SRC 1 by the outgoing or incoming SRC, as appropriate.

- a. If the general representatives are elected by the outgoing SRC, this shall be done on the advice of the incoming SRC.
- b. If no general representatives are appointed before the end of the teaching year, general representatives may be appointed temporarily by an out-of-session vote of the SRC where that appointment is ratified at the next SRC meeting.

General representatives must be members of the SRC. The committee may from time to time co-opt members of the Association to be members of the committee for a term as determined necessary by the committee. The term of membership of the committee ceases with the term of the office bearers.’

Moved: Ben Yates

Seconded: Jaya Ryan

Item 7: Other Business

Item 8: Meeting Close

The next meeting of the Student Representative Council is scheduled to be on Wednesday, 13 October at 6:15pm via Zoom.

2. Completed Projects

a. Elections

Election Week happened in Week 6, and I helped with the scrutineering aspect for the results to ensure it was conducted in a safe and effective way. I also arranged for an appreciation gift to be delivered to all of the Probity Team, as a thanks for all their work on the elections especially while we're in lockdown.

b. ANUSA Essentials Drive

We successfully ran an essentials delivery drive to off-campus students in lockdown with non-perishable food, masks, and some nice goodies like hot chocolate to help those who got caught in the quarantine orders. It went super well and hopefully everyone who received one enjoyed them.

3. Ongoing Projects

a. ANUSA Business

I'm in the process of compiling the survey results from the survey we released a couple of weeks ago to create a report for the ANU and for ANUSA's reference. I'm also working on creating a budget to help with next year's provisional budget to ensure that the project can run over the summer if possible. Christian and I are also working on establishing a legal entity for the business and figuring out how to structure the employee structure and board structure as well.

Hopefully with this work we'll be able to hand off the business for the incoming executive and it will be easier than starting from scratch.

b. QPay Union

I have secured funding for QPay Union subscription for next year, so am now working on on-boarding the system for it to start for next year's team and Clubs Council Executive. Hopefully this will be a welcome change that will make the work easier for future CCEs, and will help ANUSA's outreach for students and clubs.

c. Young Worker's Centre Kambri Survey

I'm working with the YWC on a survey to figure out the work practices of business in Kambri and ANU. This will help inform our Ethical Sponsorships policy on the front of

wage theft and worker's rights, and will also help ANUSA advocate for and better support students who may be subject to wage theft and unethical work practices.

d. **Ethical Sponsorships Group**

I'm running the last few Ethical Sponsorships groups for the rest of the year and will be figuring out a handover process for the incoming team. We're also working on a process to deal with controversial sponsors and how to deal with that as an Association.

e. **Handover**

I'm starting to compile my handover for the incoming Treasurer and planning a schedule for the next few weeks to ensure that he comes into the role prepared.

4. **Committees**

I have had no committee meetings since the last SRC.

5. **Timesheet**

Since the 1st of December I have worked 570.7 hours and taken 6.5 days of leave and 5 hours time in lieu.

SRC 6 Social Officer Report

Sophie Jaggar

1. Introduction

Welcome to the final stretch everyone! I hope you are all keeping well in lockdown or wherever else you are, and good luck for the rest of the year.

2. Elections

Most of my time before the break was spent on elections things, organising the scrutineering session etc. Congratulations to all the elected candidates, and well done to every candidate who contested the election.

3. Handover

Most of my time for the rest of my term will be spent on handing over to the new Clubs Officer, Phoenix! I am very excited to chat to Phoenix and we are having frequent handover meetings, as well as the preparation of a written handover by me and organising meetings with stakeholders that I usually work with to prepare Phoenix for the role next year.

4. Wellbeing Committee

The Wellbeing Committee has been working very hard! We had a public facing meeting and will be putting our Terms of Reference as a motion to this SRC for approval. Thank you so much to Hayley for putting it together and to everyone for their feedback. We also have a bunch of volunteers who have signed on board, and they have run a Zoom mafia event and have other plans for the rest of the semester. Thank you very much to Isha for organising that side of things. I have been looking into making volunteer hours registrable through ANU+ and buying some online gaming subscriptions to allow for more online social events. Seb has also been working on Counselling group session pilots, which we will be looking into funding for next year.

5. Clubs Things

Based on the last SRC motion, I have put forward some changes to the funding policy that will be put forward at next Monday's CCM.

Obviously with the current extension of the lockdown I do not think that Clubs Ball will be going ahead at this stage. There is possibility for it to happen at any time based on the venue choice and other infrastructure regarding the event, but I will be working with Elijah, the venue, the Executive, and the ACT Health restrictions to see if it is plausible later in my term. Elijah will still be organising clubs' awards.

6. Timesheet

In the past four weeks, I have taken one week of leave and worked 14 hours a week for the rest of the time. I will also be on sick leave this week so will not be able to answer any questions at SRC. Please feel free to email me with any questions on how I spend my time or on the content of this report at sa.social@anu.edu.au.

14. Income and Expenditure
15. Girlboss of the Month

Further Updates

16. Events

The WD has been running a number of online events during the recent lockdown including netflix parties, bi-weekly study sessions, games nights and crafternoons. Whilst engagement has been rather limited as expected - it has been lovely to see people pop in and out and chat. Special thanks to my deputies and committee members for running awesome events.

We are looking forward to running more events in the next few weeks - in line with our campaign and also looking at partnerships to support small businesses and department members.

17. Merchandise

Whilst the majority of our merch was distributed last term, we have now organised to mail out the remainder of our merch to give those who have purchased something a fun package to look forward to! As in past years, the merch has been very successful and a special thank you is owed to Aurora for managing all the ordering and distribution!

18. Semester 2 Campaign

We are currently in the process of fleshing out our Semester 2 Campaign. The campaign will be entitled 'The Enthusiastic Yes?' and centre conversations around affirmative consent as a model of respectful sexual relationships. The campaign will include a panel event, social media content and smaller events considering social dialogues around affirmative consent as well as giveaways.

19. NSSS

Universities Australia has launched the National Student Safety Survey (NSSS) to collect information from students at every university in Australia regarding the scale and nature of university student experiences of sexual assault and sexual harassment. The ANU has already gathered a relatively high participation rate but the NSSS will remain open until the 3rd October. The 10,000 ANU students who have been randomly selected were sent a link to the survey via email.

This period of increased comms and awareness may be upsetting, triggering or traumatising, so please; be gentle and take care of yourself, participate to the degree that you are comfortable, and seek support!

All of the data collected will be anonymous and will be used to compile a report following up from the 2017 Australian Human Rights Commission 'Change the Course' Report.

We recognise the disproportionate representation of sexual violence on marginalised groups and need to ensure that diverse voices are represented. If you are not invited to participate in the survey and still wish to get involved you can share your experience through an online form available at nsss.edu.au

This is a heavy and difficult time and I would strongly encourage you to access support. If you need any help with this or feel like a chat/have any feedback about this process please feel free to email sa.womens@anu.edu.au

20. Respectful Relationships Advocacy

A sub-committee of the RRWG has met to discuss changes to the Terms of Reference and a review of the IDEA Framework. This process has been useful for the re-evaluation of the group's purpose, structure and oversight mechanism. The ANU has also hired a new Practice Lead and Case Manager to work in the SASH Space as well as hiring in the Respectful Relationships Unit. We will be meeting with new appointees to discuss the scope and structure of their roles in the coming weeks and I will feedback to everyone about referable services at ANU going forward.

21. Women's Officer 2021

On Monday 27th September of Week 8 the collective will be voting for the new Women's Officer for 2021. I will be updating the SRC with the results at the next meeting.

22. Book Club

The Women's Department BookClub has recently been re-established and is being organised by Department Member Ellen Carey. They have held their first meeting to discuss the film Portrait of a Lady on Fire. Thank you to Ellen and all those involved!

23. Pastoral Care

I've received a number of disclosures since the last SRC - mainly through messenger and emails. I've since passed them on as appropriate and provided advice where asked for.

24. Income and Expenditure

Expenditure	Details	Amount	Total
Postage packaging	For Merchandise	\$141.25	\$141.25
		Grand Total	\$141.25

25. Girlboss of the Month

Our Girlboss of the month is Ella of Frell i.e. Anne Hathaway in Ella Enchanted (and obvs also her bff Areida). There is so much to say about this but it's on Netflix now so just go and watch yourself. Ella Enchanted is unsubtle feminist, anti-capitalist, anti-racist commentary and art. Girlboss to the max. Do your readings. This one is compulsory.

(lol I was thinking about how funny it would be to make AOC my girlboss of the month given the drAma but unfortunately idk if I'm funny enough to balance irony and pop feminism on this one!... anyway! This white princess seems less controversial! #taxtherichxoxo)
