Introduction

The Australian National University is home to students from the world over, with a wide range of interests, hobbies, and passions. The ANUSA Clubs Council boasts a membership of nearly 150 affiliated Clubs and Societies, offering unique educational, sporting, cultural and social opportunities to students. Clubs are brought together under 'branches', groups that unify Clubs with similar purposes; whether that be to celebrate a shared love of something, support a humanitarian or advocacy cause, or celebrate a particular culture or nationality.

Joining a Club is an excellent way to make new friends as well as get involved in campus life. Market Day, held at the beginning of each Academic Semester in either O-Week or Bush Week, is the best time to scope out the wide range of Clubs on campus. You can walk up to any of the hundred or more stalls and talk to the Club's committee members about chances to get involved and upcoming events. It is even easier to get involved in Clubs during the academic semester. Simply look up the Club on Facebook, or send an email to the address listed in this booklet, in order to find out when their next event will be happening. Grab a few friends and go along to check it out and see if it's the Club for you!

Once you've been involved with the Club for some time, there will be further opportunities to join the Club's executive and take a role in the decision-making and event-hosting process. The number and availability of these positions depend on each Club's needs and constitutional requirements. Be sure to keep an eye out for opportunities to get even more involved with these Clubs, gain useful skills, and run awesome events for other students. Without our many dedicated Club executive members the Clubs at ANU wouldn't be anywhere near as cool as they are now.

Want to keep in touch with the events happening around campus? Check out and subscribe to the ANU 'Events & Parties' Facebook page, make use of the Clubs Council calendar which you can find on the ANUSA website, and keep your eye out for posters all over ANU.

Please note that this booklet is meant to showcase the list of all ANUSA affiliated clubs as of June 2017. For regulations and resources regarding managing your club, please visit <https://anusa.com.au/life/clubs/>

If you have any outstanding questions, please do not hesitate to email sa.clubs@anu.edu.au.

We look forward to having you involved in Clubs and hope you love your time at ANU!

Arts and Performance Branch

Clubs that fall under this branch are related to a specific area of Arts and Performance. While some initial practice may be useful, it doesn't necessarily mean you must be a member to be a part of them.

The feedback provided was beneficial in structuring our Semester 2 2017 Event calendar (with a particular focus on networking with other societies and organisations to host/co-host new and exciting events whilst continuing on with the favourites everyone has loved and enjoyed. This calendar will be launched in early July 2017 (before the start of Semester 2 2017) so for prospective members thinking about joining and seeing what the fun is all about, what are you waiting for? Join our Facebook Group today and what that space for the latest developments. We are excited for the opportunities that lie ahead and hope you are too. Ka Kite Ano!

About: Founded in 2012, ASIAA was established to be a melting pot of cultures, drawing in students who want to embrace the Asian culture, regardless of their backgrounds. Members of the society can range from Asian international students who simply miss the comforting cuisines and friends from home, to students with no Asian heritage whatsoever, but want to hit it off on the dance-floor with people just as crazy as them about Big Bang's new release. Mainly however, ASIAA draws in the kids who grew up Asian in a predominantly Western society. Growing up Asian in Australia can be hard -

and it's comforting to meet friends who can relate to your childhood stories. More than that though, it's exciting to be surrounded by a group of people who are not only unafraid to embrace the myriad of identities out there, but actually be proud to express their own Asian roots and identities in Australia. ASIAA is filled with students who have a passion to take advantage of the best of the two worlds their unique background has made them adapt to. There are countless societies on campus, but come to any of ASIAA's events, and you'll see exactly why we stand out. With a fusion of both worlds where East meets West, we present monthly POPASIAA Nights held at the Mooseheads Nightclub, where top KPOP (Korean Pop) hits are remixed with thumping electrical Western influences. ASIAA's fancier annual events, like the ASIAA Boat Cruise and Cocktail Night are created with exotic themes ranging from 'A Night in Saigon' to 'The Five Elements'.

But the ability to transform the best traditions and cultures from two worlds is not ASIAA's best asset. Rather, it is the people who form a part of the society. Member numbers are growing rapidly at the turn of each new event - but regardless of how big the society's member base grows, our humble beginnings will always keep constant ASIAA's big-family feel.

How do I get involved?

Any student at ANU is more than welcome to join or get involved in our society! Although this society is more targeted towards Asian students, ASIAA proudly celebrates ANU's diverse cultures. All of our events are open to any student that is interested in what we do.

Frank Fenner Foundation Student Association (FFSA)

About: FFFSA is a non-partisan student association that strives to create a Biosensitive ANU by driving student action, and by bridging the gap between current research on biosensitivity and all people on campus. This year, we are launching our initiative to create a Plastic Free ANU as part of a longer-term plan to create a biosensitive campus. The Plastic Free ANU initiative aims to both decrease our need and use of plastics by providing helpful ways to transition away from some plastic products as much as

possible. We are especially looking at decreasing the need for single-use plastics on campus such as bags, cups and cutlery. Generally, biosensitivity does not just concern environmental sustainability and human populations' ever-increasing use of resources and discharge of wastes, but is also about how social and economic factors must be considered as well. Taking these three factors into account at all levels of society will lead to more equitable communities at both local and global scales, and means that we can live as healthy people on a healthy planet.

At a campus-level scale, FFFSA acts to help create such a biosensitive society by initiating projects such as a Plastic Free ANU. For interested students and members, the benefits of joining FFFSA are the ability to learn more and participate in our activities, and our link with the Frank Fenner Foundation and its decades of advocacy for a biosensitive society. Our events and Facebook page are about increasing awareness of the various aspects of biosensitivity, and how individuals can make changes to their lifestyles that are better for the environment, whilst being aware that for students, being environmentally friendly isn't necessarily cheap.

Australian National University Medical Students' Society (ANUMSS)

About: SUPPORT, REPRESENT, ENTERTAIN

The Australian National University Medical Students' Society (ANUMSS) was founded in 2004. It prides itself as the peak representative and advocacy body for ANU Medical School Students across all year levels. Our goal is to "Support, Represent, Entertain" the student body. With a team of dedicated committee members elected each year by our peers, we provide ongoing academic and advocacy support for medical students. In addition, we provide state and national representation at Australian Medical Students' Association (AMSA) events, and active participation at the ACT Australian Medical Association (AMA) Council meetings.

We also work closely with the Medical Education Unit at the ANU Medical School to ensure that our MChD program is of the highest standards and that our graduates have equal work opportunities in the very competitive medical field.

One of the main highlights each year is the exciting social calendar organised by ANUMSS to complement students' time at medical school. These events not only offer students a chance to de-stress, but also a relaxed environment to socialise with other year groups and establish lifelong friendships.

ANU Agricultural Society (AgSoc)

About: The core objective of the society is to fill a longstanding vacant space in the ANU student learning experience regarding Agriculture. It does so in three ways: Integrating students into local and regional agricultural businesses; Offering students the opportunity for practical learning experiences in the rural sector of the Australian economy; and facilitating and developing sustainable relationships between the ANU student body and rural enterprises.

We believe that as a statutory organisation located within the 'Bush Capital', the ANU has a responsibility to educate students about Australia's agricultural sector; and we as a committee are capable of fulfilling that. To get involved, just drop us a line.

National Security Students and Alumni Association (NSSAA)

About: The National Security Students and Alumni Association (NSSAA) was created for the benefit of current, former, and even prospective National Security College (NSC) students, as well as NSC staff and the wider ANU student body. We are a newly accredited group that seek to engage in regular social activities such as movie nights, trivia nights, and other casual gatherings, where members, their partners and interested visitors can not only have fun, but also

exchange information and discuss current events. Additionally, the NSSAA runs more formal proceedings such as its recent successful Middle East Ambassador's Panel, where members and others can hear from and interact with relevant industry and academic representatives. The NSSAA also provides a discreet avenue for current NSC students to optionally seek counselling and provide feedback on their current courses at any time, with any feedback being aggregated and anonymised before being communicated to the NSC.

Through these and other activities, the NSSAA's ambition is to create an informal network of NSC students, alumni, and staff, along with national security practitioners, industry and other interested persons.

How do I get involved?

Membership of the NSSAA is free and open to all ANU students and alumni. People can sign up for membership either via email or at events. Australian National University Men's Network

About: The Men's Network provides a space for students to discuss topics relating to male gender, and to seek community support. Examples of topics we discuss include men's physical and mental health, interpersonal relationships, and social expectations as they relate to masculinity.

Our primary method of fostering these discussions and supporting our members is through our Facebook group where we regularly promote positive discussions. We offer an anonymous question and answer service which allows people to share their feelings and experiences in a way that respects privacy and maintains personal safety. This anonymous platform has proven to be very effective and helpful for people wanting to find support, or to discuss difficult topics. In addition to our online group, we organise friendly get-togethers and promote dialogue with other mental health and gender focused groups on campus.

How do I get involved?

Our Facebook group warmly welcomes everyone to contribute to our discussions, regardless of gender. We find that some of our best contributions come from our female and gender-fluid members. Contributions from non-male members are encouraged.

About: Our club is about providing a place for people to play any type of tabletop game they want. ANU Volunteering Society (ANUV)

About: The goal of the Australian National University's Volunteering Society is to serve as the bridge between students and organisations in need of volunteers within the Canberra region. We make it as easy as possible for you to find the sort of opportunities that you're interested in, whether that be helping the homeless or teaching English to newly arrived refugees.

Volunteering allows you to improve the lives of others, learn about your local community and give back to

society, all whilst studying at university. Besides giving back to the community, volunteering also allows you to gain diverse skills, and to hone existing ones. In an increasingly competitive employment market, such skills can be the difference between a good job and a great one.

The Australian National University Consulting Society (ANUCS)

About: The ANU Consulting Society is an organization that primarily seeks to connect students interested in the field (and fields alike) of consulting. We hold social and professional networking events with global consulting firms such as the Big Four, Bain and Co. and BCG in better preparing ambitious individuals for their future career in consulting. The society's hallmark however is the ANUCS Case competition. This is an excellent opportunity for students to familiarise themselves with the range of real world cases they might encounter in their time as a consultant.

This year, the ANUCS is pleased to have PricewaterhouseCoopers (PWC) sponsoring the competition. The winning team will secure themselves a guaranteed interview opportunity with PwC.
